

WHO WE ARE

[EURICSE](#) is a **participatory foundation** established in Trento in 2008 to **promote knowledge and innovation** in the field of cooperative and social enterprises and other social economy organisations.

In addition to the **five founding members**, the Foundation's membership consists of **more than 30 ordinary members**, representing the various sectors of the social economy ecosystem.

Starting from interactions with its membership, EURICSE carries out **research, consulting and training activities** with the aim of promoting and disseminating reflection on the characteristics, functioning and impact of cooperative enterprises, social enterprises and, more generally, social economy organisations, with a **multidisciplinary approach** and a **European and international perspective**.

JOIN EURICSE

Becoming a member of EURICSE means promoting a deeper understanding of the social economy and contributing to the recognition of its potential.

Through their membership fees, **EURICSE's ordinary members promote and benefit from scientific research, the primary tool for knowledge and innovation**, thus supporting valuable knowledge that would otherwise risk not emerging. Through their skills and experience, **they contribute to the design of research questions**, identifying needs and stimuli for scientific reflection.

Furthermore, they enjoy privileged access to **consulting and training activities**, and actively contribute to the orientation of the Foundation's strategic guidelines through **participation in the Steering Committee**.

For its members, **EURICSE is:**

KNOWLEDGE TOOL
based on scientific research

SUPPORT in strategic positioning
and growth of your organisation

SOURCE OF SKILLS
for acquiring innovation capabilities

CHANNEL FOR CONNECTING
to national and international networks

Join EURICSE,
seize the opportunities

RESEARCH

➤ RESEARCH AGENDA

Active participation in defining EURICSE's thematic priorities and lines of research.

➤ CUSTOMISED PROJECTS

Access, on favourable terms, to customised research projects.

➤ ONGOING PROJECTS

Opportunities for getting involved, as case studies, in ongoing research projects.

➤ RESEARCH RESULTS

Priority access to summary content of research projects, as tools for keeping up to date with developments in the sector.

CONSULTING

➤ CUSTOMISED CONSULTING

Opportunity to activate tailored consulting programmes, at favourable terms, for the definition of development and innovation strategies.

TRAINING

➤ IN-HOUSE SEMINARS

Access to EURICSE's in-house seminars, which provide opportunities to disseminate and discuss research results and the methodologies used.

➤ CUSTOMISED TRAINING

Opportunity to activate tailored training programmes, with favourable terms.

NETWORKS

➤ NETWORKING

Involvement in the national, European and international networks in which EURICSE participates, as channels of connection with the social economy ecosystem.

➤ MASTER GIS

Priority access to the network of qualified students of the Master GIS, with the possibility of hosting internships or project work, for the recruitment of qualified resources.

➤ FORUM

Participation in discussion and debate forums, reserved for EURICSE members, to share issues and priorities within the ecosystem.

➤ PARTNERSHIPS

Active involvement in national and European project management activities.
